Zehnder ComfoAir Q

The new generation of ventilation units

More efficient, quieter and more intelligent

- Optimised design for quieter and more efficient operation
- Modulating by-pass with intelligent temperature control for more comfort
- Modulating pre-heater for preheating on demand
- Flow Control technology for a new kind of balanced volume flow and easy start-up
- New diamond heat exchanger with more surface area and less pressure loss for even more heat recovery and less power consumption

Easy transition to Zehnder ComfoAir Q

The new generation of ventilation units can be installed quickly as usual and is 100% compatible with the recognised Zehnder air distribution system.

And now even better:

- Intuitive unit display with wizards for quick and easy commissioning
- Right-hand and left-hand version combined in one unit for peace of mind during planning and assembly
- Volume flow and time-dependent filter monitoring for hygienic operation
- Custom operating concept: From a simple switch all the way through to the App for user-friendly operation

Technical specifications *

Zehnder ComfoAir Q Two designs with three air powers			
	350	450	600
W x H x D in mm	725 x 850 x 567		
Max. air performance at 200 Pa in m ³ /h	350	450	600
Heat recovery (according to PHI) in %	87	85	83
Electrical efficiency (acc. to PHI) in Wh/m ³	0,26	0,28	0,36
Application range for up to m ²	180	240	320

* Preliminary values
